Dear Louisiana Rehabilitation Services (LRS) Clients,

Thank you for scheduling your LRS evaluation with my office. The following are some Frequently Asked Questions (FAQs) about your visit.

Where am I going and why?

Your counselor at Louisiana Rehabilitation Services (LRS) has referred you for a psychological or neuropsychological evaluation to assist in your academic and/or vocational planning. To avoid delays in receiving services through LRS, it is critical that you keep your appointment and allot enough time to complete your evaluation. A standard evaluation takes approximately two hours. Neuropsychological evaluations require considerably longer and may need to be scheduled over one or more testing days, as needed to examine your disability thoroughly. If you must reschedule, please do so within 48 hours of your appointed time.

What can I expect?

You will meet with Dr. Creveling, a licensed psychologist, for an initial interview during which time she will obtain information about your background, reason for seeking disability benefits, etc. You will then take a series of tests designed to yield information about your verbal and non-verbal abilities, academic strengths and weaknesses, and other areas relevant to your disability.

After the evaluation, then what?

After your appointment, we will mail a written report to your LRS counselor. If you have questions after your evaluation is completed, please contact your vocational counselor, as he or she will be able to assist you best.

It is my sincere hope that the information provided in this packet is helpful in expediting your Louisiana Rehabilitation Services (LRS) evaluation. Please do not hesitate to call or email, if I can offer additional information or be of further assistance.

Sincerely,

Christiane Cuveling Benefield, PhD
